855 “Zer0-Mod” Bandit Modified

Build Guide (26.07.17.01)

NOTES:

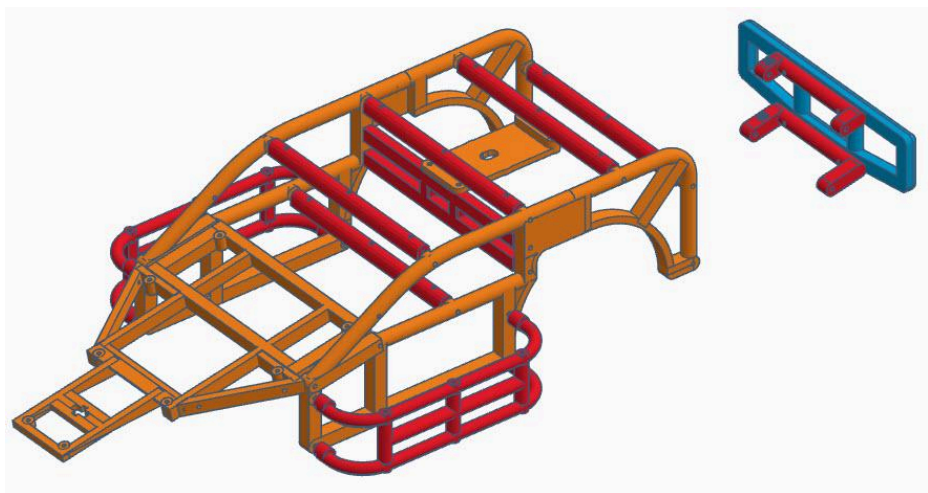

- A) Carefully recognize the LEFT and RIGHT Cage Sides**
- B) Cage Sides must be oriented with the one counterbored hole IN-WARD**

Be sure to “sandwich” the PANELS during steps 2-4 below

1. Assemble NERFs (2 sets) (6ea M3x16 BH per nerf assembly)
2. Attach NERF BARS to each SIDE CAGE (8ea M3x16 BH)
 - a. Be sure to “Sandwich” the SIDE PANELS between the CAGE and Nerf
 - b. Be sure the bottom rear nerf bar attachment counterbored holes face inward
3. Attach Rear Mount to top of DOUBLE CROSS BAR making sure the thicker end-foot points up, using 2ea M3x12 BH screws in the front and 2ea M3x16 BH screws in the rear
4. Assemble Cage by Attaching the following components...
 - a. Be sure to “Sandwich” the various PANEL parts between the CAGE and Screws
 - b. DOUBLE CROSS BAR with Rear Mount on top and pointed to the rear (4ea M3x16 BH)
 - c. HOOD (4ea M3x16 BH)
 - d. 3 each UPPER CROSS BARS (2ea M3x16 BH per bar)
 - e. 1 each MIDDLE CROSS BAR (2ea M3x16 BH)
 - f. 1 each REAR CROSS BAR (2ea M3x16 BH)
5. Attach HOOD PANEL (8ea M3x5 BH)
6. Attach ROOF PANEL with large hole to the rear (9ea M3x5 BH)
7. Attach Side Panels to Hood (2ea M3x5 BH per side)
8. Add additional Side Panel screws to Side Panels (2ea M3x5 BH)

CONTENTS:

Left Side Cage
Right Side Cage
Hood
Nerf Bar Set
Panel Set (sold separately)
Rear Mount
Cross Bar Set
Bumper & Bumper Mount
ESC Tray
Screw Set
25 M3x5 BH
2 M3x12 BH
44 M3x16 BH

Additional hardware and parts are now available.

1. Rear Bumper. Our 9022 bumper instructions contain more details about how to install the longer 855/856 rear bumper directly to the Bandit transmission. Available for both Magnum and non-Magnum transmissions.

2. ESC Tray. Install ESC Tray on the drivers side of the Bandit chassis (2 ea M3x10 BH). Use double sided tape to attach esc to the new location on the ESC tray. This is only necessary if there is interference between cage and esc when mounted in the center on top of the battery.

Contact Team QIK Racing if you have questions or require assistance selecting or installing the correct parts.
